programs for mid-
career and young
professionals

Our Vision

We envision a world where women's leadership and participation at all levels of policy-making serves to fashion a more equitable, peaceful and prosperous world.

Our Mission

WFPG is committed to advancing women's leadership in international affairs and amplifying their voices through substantive global issues discussions and mentoring.

What We Do

WFPG works to expand the foreign policy dialogue across political divides and generations, and to support women at every stages of their careers. Through mentoring and career development programs, we connect aspiring leaders with role models, providing students and young professionals with the tools they need for career advancement and to contribute to a stronger, more peaceful, and equitable society.

Programs we offer:

Beyond the Headlines:

Prominent officials and journalists take our members and guests beyond the headlines and provide context for the key issues shaping foreign policy today.

Author Series:

Our Author Series features discussions from authors and prominent journalists about their work.

Foreign Policy & Technology Series:

We ignite conversations among experts about the ways in which modern technology impacts contemporary foreign policy.

Mentoring:

WFPG's Mentoring programs encourage and promote the next generation of leaders by providing students, young professionals and mid-career professionals the opportunity to meet with international affairs professionals to discuss career experiences and to learn firsthand what tools are needed to excel in their fields.

Annual Benefit:

WFPG's Celebrating Women Leaders Luncheons are held annually in Washington, DC to highlight the achievements of some of the most prominent policy-makers and thought leaders shaping the world today. Honorees are recognized for their extraordinary leadership in foreign affairs and national security, as well as for their roles as trailblazers and role models for aspiring women leaders. Speakers have included key US officials including secretaries of state, top national security leaders, and senators, as well as heads of UN agencies.
